- New York – June 6-9, 2017

About Reata Pharmaceuticals, Inc.

Reata Pharmaceuticals, Inc., is a clinical-stage biopharmaceutical company that develops novel therapeutics for patients with serious or life-threatening diseases by targeting molecular pathways involved in regulating cellular metabolism and inflammation. Our two most advanced clinical candidates (bardoxolone methyl and omaveloxolone) target important transcription factors, called Nrf2 and NF-κB, to restore mitochondrial function, reduce oxidative stress, and resolve inflammation.
